

Presidents and George W. Holmes Lecturers of
The New England Roentgen Ray Society

Year	President	Holmes Lecturer	Lecture Title
1919	Ralph D. Leonard, M.D.		
1920	Harry W. Van Allen, M.D.		
1921	George W. Holmes, M.D.		
1922	Ariel W. George, M.D.		
1923	Paul F. Butler, M.D.		
1924	Frederick W. O'Brien, M.D.		
1925	Lawrie B. Morrison, M.D.		
1926	Philip H. Cook, M.D.		
1927	Curtis H. Jennings, M.D.		
1928	Frank W. Lamb, M.D.		
1929	John H. Lambert, M.D.		
1930	Merrill C. Sosman, M.D.		
1931	Fred S. Eveleth, M.D.		
1932	Charles W. Blackett, M.D.		
1933	Isaac Gerber, M.D.		
1934	Thomas R. Healy, M.D.		
1935	A. S. MacMillan, M.D.		
1936	A. E. O'Connell, M.D.		
1937	Frank E. Wheatley, Sr., M.D.		
1938	Edward C. Vogt, M.D.		
1939	Langdon T. Thaxter, M.D.		
1940	Aubrey O. Hampton, M.D.		
1941	Kenneth K. Kinney, M.D.		
1942	Albert M. Moloney, M.D.		
1943	John Sproull, M.D.		
1944	Hugh F. Hare, M.D.	George W. Holmes, M.D.	Therapeutic Radiology
1945	Philip Batchelder, M.D.	Arthur C. Christie, M.D.	The First Fifty Years of Radiology
1946	Samuel A. Robins, M.D.	Merrill C. Sosman, M.D.	Pituitary Adenoma
1947	Edward B.D. Neuhauser, M.D.	Eugene P. Pendergrass, M.D.	The Roentgen Diagnosis of Meningiomas of the Head

1948	Richard Schatzki, M.D.	John D. Camp, M.D.	Contrast Myelography
1949	Stanley A. Wilson, M.D.	Ralph S. Bromer, M.D.	Giant Cell Tumor of Bone
1950	George Levene, M.D.	Byrl R. Kirklin, M.D.	Some Problems in the Education and Training of Radiologists
1951	Joseph H. Marks, M.D.	Alexander S. MacMillan, Sr., M.D.	The Roentgen Examination of the Larynx
1952	Douglas J. Roberts, M.D.	Edith H. Quimby, M.D.	Diagnostic Uses of Radioactive Isotopes
1953	Laurence L. Robbins, M.D.	Ross Golden, M.D.	Neoplasms of the Small Intestine
1954	Jack Spencer, M.D.	Fred J. Hodges, M.D.	Current Potentialities of Cardiovascular Radiology
1955	Max Ritvo, M.D.	Laurence L. Robbins, M.D.	The Radiologist Faces Automation
1956	Leslie K. Sycamore, M.D.	Frederick W. O'Brien, M.D.	The Atomic Age and Radiology
1957	Magnus I. Smedal, M.D.	Patrick F. Butler, M.D.	The Radiologist in Court
1958	Felix G. Fleischner, M.D.	Leo G. Rigler, M.D.	The Place of Radiology in Medical Education
1959	Stanley M. Wyman, M.D.	J. Stauffer Lehman, M.D.	The Potentialities of Coronary Arteriography
1960	Arnold H. Janzen, M.D.	Hugh M. Wilson, M.D.	Some Recent Developments in Roentgen Technique
1961	John E. Gary, M.D.	Richard Schatzki, M.D.	Fate of the Bearer of a Lower Esophageal Ring
1962	Milford D. Schulz, M.D.	John C. Trump, M.D.	Radiation for Therapy in Retrospect and Prospect
1963	Harold L. Loverud, M.D.	Magnus I. Smedal, M.D.	Observations on Clinical Reactions to Megavolt Radiation
1964	Clarence N. McPeak, M.D.	Harold O. Peterson, M.D.	Roentgen Examination of the Intervertebral Disc, 1935 to 1965
1965	Alice Ettinger, M.D.	Felix G. Fleischner, M.D.	Recurrent Pulmonary Embolism and Chronic Cor Pulmonale
1966	Robert E. Wise, M.D.	Edward B. D. Neuhauser, M.D.	Gargolyes and Such – Some Comments on the Hunter-Hurler Syndromes
1967	Martin H. Wittenborg, M.D.	Russell H. Morgan, M.D.	The Emergence of Radiology as a Major Influence in Academic and Community Medicine
1968	Jack R. Dreyfuss, M.D.	Lucy F. Squire, M.D.	Radiology for Medical Students

1969	James B. Dealy, M.D.	Milton Elkin, M.D.	Vascular Fistulae of the Kidney
1970	Robert M. Lowman, M.D.	Herbert L. Abrams, M.D.	The Current Status of Coronary Arteriography
1971	Lloyd E. Hawes, M.D.	Shields Warren, M.D.	Main in a Radioactive Element
1972	Morris Simon, M.D.	John A. Campbell, M.D.	Radiology and the Citizen
1973	Ferdinand A. Salzman, M.D.	Henry S. Kaplan, M.D.	Role of Diagnostic Radiology and Nuclear Medicine in the Management of the Cancer Patient
1974	Jerome H. Shapiro, M.D.	Harold G. Jacobson, M.D.	The Hand-A Radiological Mirror
1975	Robert E. Paul, M.D.	Harry Z. Mellins, M.D.	The Clinical Challenge of Nephrography
1976	Stefan C. Schatzki, M.D.	Alexander R. Margulis, M.D.	Use of Water Soluble Contrast in the GI Tract Today: When and How
1977	John A. Kirkpatrick, Jr., M.D.	Edward B. Singleton, M.D.	The Radiologic Recognition of the Complication During Intensive Care of Premature Infants
1978	Murray L. Janower, M.D.	Martin W. Donner, M.D.	Radiologic Aspects of Hiatus Hernia, Gastroesophageal Reflux, and Esophagitis
1979	N. Thorne Griscom, M.D.	William H. Northway, M.D.	An Approach to Radiologic Diagnosis in the Newborn Infant
1980	Melvin E. Clouse, M.D.	Joseph T. Ferrucci, M.D.	New Concepts in Biliary Obstruction: Clinical and Physiological Correlation
1981	John F. O'Connor, M.D.	Melvin M. Figley, M.D.	Publication Radiology—Unmet Challenges
1982	Herbert F. Gramm, M.D.	Henry I. Goldberg, M.D.	Comparison CT and NMR Imaging in Evaluation of Benign and Malignant Disease
1983	Ferris M. Hall, M.D.	William Martel, M.D.	Skeletal Hyperostoses
1984	Barbara L. Carter, M.D.	Stanley Baum, M.D.	Cardiovascular Imaging Techniques
1985	Karl T. Benedict, Jr., M.D.	John A. Kirkpatrick, Jr., M.D.	The Adolescent & Adult with Pediatric Pulmonary Disease
1986	Harry Z. Mellins, M.D.	Joseph T. Ferrucci, Jr., M.D.	MR Imaging of the Liver
1987	Theresa C. McLoud, M.D.	Robert G. Fraser, M.D.	Scanned Projection Digital Radiography of the Chest:

			Past, Present and Future
1988	Robert L. Lebowitz, M.D.	Robert R. Hattery, M.D.	The Role of Information Transport (Voice, Data and Video) in Consultative Diagnostic Imaging
1989	Edward H. Smith, M.D.	Bruce J. Hillman, M.D.	Whose Turf is Imaging? Independent Practice, Academics and Research
1990	Robert A. Kane, M.D.	Fred Lee, M.D.	Transrectal Ultrasound and Pathology: Correlation Between Stage A and Stage B Prostate Cancer
1991	Robert D. Pugatch, M.D.	Ernest J. Ferris, M.D.	Pulmonary Thromboembolism and Deep Venous Thrombosis: Comments on Diagnosis and Therapy
1992	Francis Scholz, M.D.	Emile Balthazar, M.D.	Computed Tomography of the Acute Abdomen
1993	Stephen W. Miller, M.D.	Charles Higgins, M.D.	Functional Evaluation of the Cardiovascular System
1994	Barbara Weissman, M.D.	Lee F. Rogers, M.D.	Evaluation of Athletes and Athletically Inclined
1995	John J. Cronan, M.D.	E. Stephen Amis, Jr., M.D.	An Overview of Prostate Cancer
1996	Robert H. Cleveland, M.D.	Patricia E. Burrows, M.D.	Pediatric Vascular Anomalies: Diagnosis and Treatment
1997	H. Esterbrook Longmaid, III, M.D.	Richard L. Baron, M.D.	Cirrhosis: Issues, Problems and Answers for Imaging
1998	Peter R. Mueller, M.D.	Michael Dake, M.D.	A New Understanding of Aortic Dissection: Insights from Imaging and Endovascular Interventional Radiology
1999	Vassilios D. Raptopoulos, M.D.	Peter Cooperberg, M.D.	Is It Real or Is It Artifact?
2000	Jo-Anne O. Shepard, M.D.	Stephen Swensen, M.D.	CT Screening for Common Causes of Death
2001	Pablo R. Ros, M.D.	Robert Stanley, M.D.	Inherent Dangers in Radiologic Screening
2002	Glenn A. Tung, M.D.	Donald L. Resnick, M.D.	Degenerative Diseases of the Spine
2003	G. Scott Gazelle, M.D., MPH, Ph.D.	James H. Thrall, M.D.	Crossing the Digital Divide
2004	Sanjay Saini, M.D.	William G. Bradley, MD,	MR Imaging Over the Next

		PhD, FACR	Decade: Quo Vadis?
2005	William W. Mayo-Smith, M.D.	Elliott K. Fishman, MD	Volumetric Imaging 2006: 64 and Beyond
2006	Deborah Levine, MD	Hedvig Hricak, MD	Prostate MR Imaging
2007	Alexander Norbash, MD	Andy Adam, MBBS	Interventional Radiology: Veni, Vidi, Vanished?
